

LOGITECH PERSONAL COLLABORATION SOLUTIONS

Today's employees have different needs when it comes to hybrid collaboration and productivity. We've got you covered.

We've studied the user experiences of people working from home over the past few years and found that most are underequipped for video-first collaboration. Among those working with standard-issue computing devices which typically include their computers, mice, keyboards, and sometimes monitors, 89% struggle with video issues, and 85% struggle with audio issues due to the limitations of embedded cameras, mics, and speakers.¹ These issues affect their ability to collaborate effectively.

PERSONAL COLLABORATION SOLUTIONS

Our personal collaboration solutions give knowledge workers the capabilities they need to communicate and collaborate effortlessly. Logitech headsets provide crystal clear sound quality with noise-canceling mics. Logitech webcams offer exceptionally clear video in high resolution. And for IT managers, these solutions are simple to deploy and easy to maintain. Certified for leading meeting platforms such as *Microsoft Teams*, *Zoom*², and *Google Meet*, our solutions provide a reliable meeting experience for today's hybrid workforce.

SOLUTIONS FOR **HIGH-PROFILE USERS**

Executives and employees in highly visible roles need great tools to produce videos and presentations, lead training sessions, deliver keynote speeches, or drive important meetings. They can't afford poor-quality audio or video.

FEATURED PRODUCTS

Create workspaces optimized for video collaboration with our ultimate solution, including Zone True Wireless earbuds, Brio webcam, and Logi Dock. These devices deliver a premium experience for audio and video.

**ZONE TRUE
WIRELESS EARBUDS**

BRIO WEBCAM

LOGI DOCK

LOGI DOCK: THE ALL-IN-ONE DOCKING STATION FOR HYBRID WORK

Our all-in-one *USB-C* docking solution with meeting controls and speakerphone that unclutters your desktop setup and enhances productivity.

POWER UP

Connect up to 5 USB peripherals and 2 monitors³ while charging a laptop with up to 100 watts of power.

BE HEARD CLEARLY

Six beamforming microphones and advanced algorithms reduce background noise so others can hear you clearly.

JOIN MEETINGS WITH ONE TOUCH

Press one button⁴ to instantly join a meeting on Teams, Zoom, and Google Meet.

SOLUTIONS FOR **POWER COLLABORATORS**

For some knowledge workers, continuous interaction and collaboration with colleagues is a defining feature of the workday. They rely heavily on video and audio as they spend much of their day in meetings.

OUR BEST SOLUTION

Streamline video meetings and unclutter personal workspaces with Zone True Wireless, Brio, and Logi Dock. Look and sound natural with premium devices.
