

PERSONAL COLLABORATION
**HEAR BETTER.
MEET BETTER.**

Logitech® headsets enhance collaboration in any workspace. Our professional headsets offer style, affordability, life-like sound and all-day comfort. Certified and/or compatible with all leading video conferencing applications, Logitech business headsets are always ready for your next call.

LOGITECH OFFICE HEADSETS

Open workspaces are great for collaboration, but they can also be noisy. Take control of your acoustic environment with the Zone Wireless headsets, specifically designed for busy workspaces. Connect simultaneously to your smartphone and computer to easily transition between phone chats, video meetings, music, and general noise reduction throughout your day.

Those who spend most of their day taking calls from their computer will appreciate the comfort and design of the H820e, H650e and H570e headsets. Available in both mono and stereo options, these headsets are intended to make calls as productive and comfortable as possible.
