A FAMILY THAT ACTUALLY GETS ALONG.

Logitech ConferenceCam Kit

with Intel NUC

Finally, the flexible collaboration solution you've been waiting for to enhance productivity, strengthen personal connections, and deliver a truly awesome video conference experience. Logitech® ConferenceCam Kit with Intel® NUC video conferencing system — configured and validated for performance and compatibility — includes a Logitech ConferenceCam, wireless touch keyboard K400 PLUS, Intel NUC, Intel Unite™ and Luminari Quicklaunch SE.

No more guesswork trying to figure out which components work together. This easy-to-buy collaboration bundle provides rich, beautiful HD video conferencing that works with any

VC software application or cloud service — including the ones you already use. No need to waste precious time trying to get things to work: simply walk into the room and quickly start your meeting.

The Luminari Quicklaunch SE interface provides a simple, consistent, and familiar experience time after time. Yet it's completely flexible and can be easily customized to meet the specific needs of different workgroups—or locked down with kiosk mode. Auto-reset ensures the system is always ready to use, while auto-reboot provides a clean start at the push of a button.

The high-performance, small form factor Intel NUC delivers a robust collaboration experience, meeting after meeting. The Intel NUC with Intel Unite makes wireless screen sharing easy, simplifies meeting setup and control, and works in both standalone and complex network environments. Plus, because the Intel NUC is a PC, it can be managed remotely with Intel vPro™ technology.

Welcome to a whole new era of video conferencing flexibility and simplicity with the Logitech ConferenceCam Kit with Intel NUC that turns any space into a true collaboration space.
